PROFILE

Computer engineer focused on frontend web & mobile development and testing/QA. Creative and quick to learn, I adapt easily across the stack – from UI/UX to backend and quality – and care about shipping reliable, well-crafted products in multidisciplinary teams.

EXPERIENCE

Software Developer

JAN 2026 – JUN 2026

HANA TRAVEL

Leading front-end development of an operational management system – user-centric UI/UX, system planning, and backend integration incl. API consumption & feature design.

Software Developer

JAN 2024 – APR 2025

CELADONSOFT

Built web & mobile applications for international clients across the full stack – frontend and backend, game design & development, UI/UX, and software QA with automated testing (Selenium).

“Esen consistently demonstrated strong technical knowledge, versatility across multiple disciplines, and the ability to quickly adapt to new technologies. I have no hesitation in recommending her.”

DENIS KAZAK – CTO, CELADONSOFT · [READ THE FULL LETTER ↗](#)

Junior Frontend Developer

NOV 2023 – FEB 2024

SYNAVERSE

Built a CRM web application using AngularJS and Docker.

Test Engineer Intern

SEP 2023 – OCT 2023

TECHNE BİLİŞİM

Led testing and data-control processes across software environments; managed bug tracking through Azure, Rancher and Swagger UI.

Business Intelligence Intern

AUG 2022 – SEP 2022

AGT

Developed Power BI reports on SAP data and researched the company's metaverse initiative, strengthening problem-solving and BI skills.

EDUCATION

Alanya Alaaddin Keykubat University

2018 – 2024

B.Sc. Computer Engineering

GDSC ALKU · Social Coding Club · Robotic Club

Fen Bilimleri High School · Metin Nuran Çakallıklı HS

2013 – 2017

High School

TECHNOLOGIES

React Native React.js Next.js
